yunie 22/8/2025, 7:17 pm

ZacSponge 22/8/2025, 7:26 pm
Aight easy
I think the contribution form is another assignment on canvas
You want to submit tonight or tomorrow?

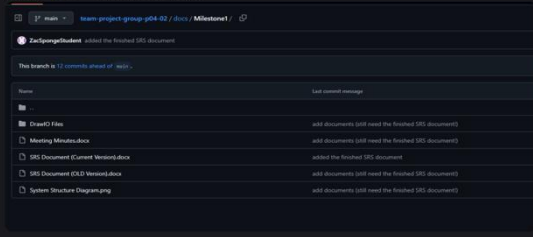

nullity ⚡ CP77 22/8/2025, 7:30 pm

23 August 2025

ZacSponge 23/8/2025, 1:16 pm
I'm gonna look at it today and submit it, give me a couple hours

ZacSponge 23/8/2025, 8:37 pm
Sick
Sorry I was making food
I'll push it now
Push is done
Lmk when the git is done and I'll push with a tag and submit it on canvas

nullity ⚡ CP77 23/8/2025, 8:48 pm

That's here
btw the tags are case sensitive, so it should match whatever they got on canvas (edited)

yunie 23/8/2025, 8:51 pm
"milestone 1"
is what they have on canvas

and stuff like this -

**ZacSponge** 12/9/2025, 1:00 pm
Ok so I'm gonna try and make a good start on the navigation bar today, but I mighttt need some help with someone explaining the structure of project again, I've looked through it and I kind of get it but it'd be good to have someone explain some of the finer details to me
If no one's available that's alright
But I probably won't be able to properly work on it without it

**nullity** ⚡ CP77 12/9/2025, 1:26 pm

```
@Override
public void addInterceptors(InterceptorRegistry registry) {
    registry.addInterceptor(authInterceptor)
        .addPathPatterns("/event/**", "/dashboard", "/admin-dashboard", "/search-results") // Protected routes
        .excludePathPatterns("/sign-in", "/sign-up", "/css/**", "/js/**"); // Public routes
