Hey guys I had thought, we could add tests associated with speed. Tests only pass if the meet a required speed??
It could provide us more marks?

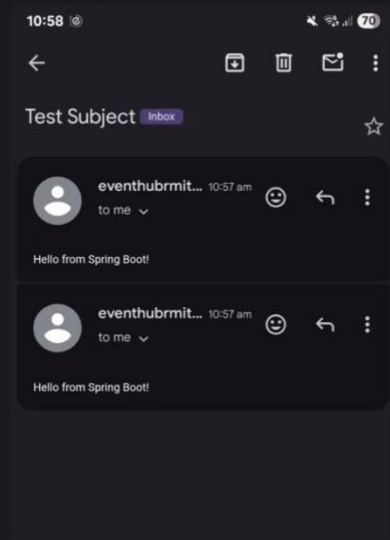

ZacSponge 29/9/2025, 10:07 pm

Could do
But I reckon we only tackle that after we've done the other stuff
That's extra

ZacSponge 7/10/2025, 2:20 pm

@Lucas Aponso you might want to update your acceptance criteria to match the template in your stories

I added the view photos user story but as of now no one is doing that, I reckon we cross that bridge when we get to it

Hope everyone's going okay with their stuff

9 October 2025

nullity ⚡ CP77 9/10/2025, 12:52 pm

we can hard code admin

yunie 9/10/2025, 1:19 pm

navbar should be persistent (ALL PAGES)
create event should not be able to be navigated to if no clubs exist
no deleting yourself as an admin
no creating yourself as an admin
document how to run tests
readme file needs to be updated - testing methods unclear
club tests/

acceptance tests

dale: there should be a super admin (cannot delete itself, can create other admins)

ZacSponge 9/10/2025, 1:27 pm

```
package au.edu.rmit.sept.webapp.controllers;  
  
import java.util.ArrayList;  
  
import static org.hamcrest.Matchers.containsString;  
import org.junit.jupiter.api.BeforeEach;
```

ZacSponge 9/10/2025, 3:46 pm

That probably shouldn't happen

ZacSponge 9/10/2025, 4:59 pm

I completed all the fixes in the github though
I'm making a pull request now if you guys want to see it
Also I fixed the problem
that I screenshared

ZacSponge 9/10/2025, 5:16 pm

Made a pull request if anyone wants to take a look
That should make our lives a lot easier

nullity ⚡ CP77 9/10/2025, 8:20 pm

@ZacSponge good work, merged ur changes, the thing id add is a successMessage that says "User status updated!"
etc

ZacSponge 9/10/2025, 8:32 pm

Yeah facts
I'll add that tomorrow

when u click on an event table row
it crashes

ZacSponge 9/10/2025, 9:50 pm

Adding phot now works, just got the getting of photos

ZacSponge Yesterday at 11:19 am

Sick

Just did the price validation and made a fix branch

Should I make a PR for a fix branch or can I just merge it

Probably a PR

Lucas Aponso Yesterday at 11:20 am

Nice work

ZacSponge Yesterday at 11:25 am

I'll hold off on the PR until I add a success message to the modify user form

Lucas Aponso Yesterday at 11:43 am

Ok I've got a carousel displaying the photos

I need to enforce a file limit size

Because the page crashes if the file is over 1mb

11 October 2025
